

Who is AFFLINK?

AFFLINK is a global leader in supply chain management. And we do one thing better than anyone else in the industry - provide innovative process and procurement solutions to drive efficiencies in today's leading businesses.

For more than 40 years, AFFLINK has connected more than 200 manufacturers of facility maintenance, packaging, safety, office, and industrial supply solutions with nearly 300 independent distribution experts. Just as our name suggests, we are that critical link offering clients innovative products, market expertise and improved profitability, all of which is fueled by our leading-edge information technology.

Understanding our clients from the top down, AFFLINK takes a consultative approach to solving client needs. Our marketplace experts have been trained to ask the right questions that uncover opportunities and identify cost savings that go beyond product and price. Simply put, we are the catalyst to improve profitability.

Unlike other organizations, with AFFLINK, our clients get the best of both worlds - the speed and efficiencies of online ordering, single-source invoicing, and one point of contact, but through the combined knowledge and power of our marketplace consultants, we also offer the intimacy, flexibility, and responsibility of local distribution on a national scale.
