

... HOW CLEAN IS YOUR ...

# BED & BREAKFAST?

## MOST GERM FILLED ITEMS IN GUEST ROOMS:

#1

Telephones often carry as much as double or triple the acceptable limit of germs

#2

These areas are often missed entirely during regular room clean ups

#3

Countertops are a surprising place for germs, often housing 2.5 million bacterial levels

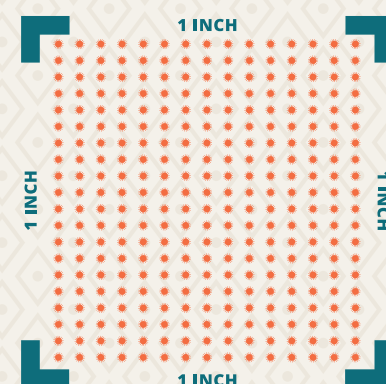

Four and five star establishments are often germier than three star facilities, often times filled with more germs than airplanes or schools.

### WHAT'S FOUND ON REMOTES?

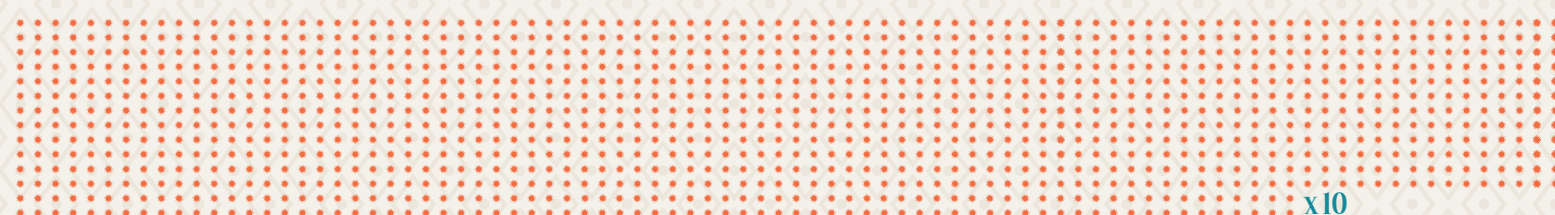

Hotel sheets and towels are regularly laundered, but pillows and comforters almost never are.

There are 300 bacteria per square inch on toilet seats

**70%**  
of ice machines  
contain more bacteria  
than toilet water

x10

Food menus often carry more bacteria than anything else in the typical bed & breakfast restaurant with an average of 185,000 bacteria particulars
